1 December 1961

MEMORANDUM FOR: Commander, Detachment NR. 1  
Aeronautical Chart and Information Center  
United States Air Force  
Washington 25, D. C.

SUBJECT: Commendation

1. I wish to express my appreciation for the excellent and expeditious service rendered the National Photographic Interpretation Center on the weekend of 14 October 1961. Over 37,000 prints on East Germany were furnished this Center and were used for a joint intelligence project. The professional manner in which this service was carried out reflects great credit to your operation.

2. As you know, many of the requirements levied on the National Photographic Interpretation Center are on a "crash" basis. Consequently, it is necessary at times to request supporting or collateral intelligence materials on a similar basis. Rest assured, however, that the National Photographic Interpretation Center will not request materials on an expedite basis unless a very urgent need exists. I would appreciate your conveying my thanks to Detachment NR. 1 personnel who participated in the effort.
